

**AMERICAN SOCIETY OF CIVIL ENGINEERING
LOS ANGELES GEO-INSTITUTE CHAPTER
SCHOLARSHIP 2019**

The Los Angeles Geo-Institute chapter of ASCE is pleased to offer two scholarships directed to undergraduate seniors planning to enroll in a graduate-level geotechnical program in Fall 2019 and continuing graduate students. The scholarships are intended to recognize past achievement and career growth potential of students interested in pursuing a career in geotechnical engineering.

ELIGIBILITY

1. Senior standing in an ABET accredited Civil Engineering program in California, with plans to apply to one or more graduate geotechnical engineering programs (preferably in Southern California) and enroll no later than Fall 2019.

OR

2. Enrollment in a Master- or Doctoral-level geotechnical engineering program at a California university (preferably in Southern California). Preference will be given to students who will graduate no earlier than Spring 2019.

AWARDS

Each of the winners of the scholarships will receive a cash award of \$2,500 and an award certificate. The awardees will be invited to attend (free of charge) the Chapter's Spring Seminar on April 17th, 2019 to receive the award certificate (no transportation or lodging provided). The award checks will be sent to the winners upon receipt of official verification of enrollment in a suitable geotechnical graduate program as defined above.

APPLICATION PROCEDURE

Applications are due by **March 29, 2019 at 5:00 PM**, and the winner will be announced at the Spring Seminar on April 17th, 2019. Each applicant must submit the following:

1. A resume including professional experience (including summer employment), university major and minor(s), expected graduation date, address/phone number/email address, and at least three references that can speak to your personal character and/or scholastic achievements.
2. A list of past and current courses, as well as a university transcript (unofficial transcript okay).
3. Two letters of recommendation from Civil Engineering faculty members and/or licensed Geotechnical Engineers which evaluate the applicant's recent academic performance and potential to contribute to the geotechnical engineering field.
4. A statement of educational and career goals (maximum length of 250 words). The statement should emphasize your achievements as they relate to your potential in the field of geotechnical engineering, your short-term goals for continued education, and long-term goals for a profession in the field of geotechnical engineering. Include the specific areas of interest and how you might contribute to the field of geotechnical engineering.

If submitted via email, please combine all files into one pdf document.
